BA in ARCHAEOLOGY

Department of History, Archaeology and Museology

"The fieldwork opportunities, stimulating courses and a rich set of practical skills make Alba Iulia a great place to study Archaeology. One of the things that I enjoyed most was making experiments with pottery using Neolithic techniques. However, it is not easy to find the secrets of our ancestors. This is what I truly discovered during my studies in Alba Iulia"

Alina Bintintan, MA student.

"Studying at Alba Iulia gave me a different perspective on what history means. It's not about the facts, as it is about the ideas, the emotions, and the humans who made them happen. I understood that during my stay in the city and after so many travels in the places nearby or throughout the country."

George Alexandru Costan, MA student.

Why study at Alba Iulia

For centuries the capital of Transylvania, Alba Iulia is located at the crossroads of the Apuseni Mountains with the Transylvanian Alps and the Transylvanian Plateau. Its location allows visits in the areas of ancient gold mining and traditional Romanian villages of the Apuseni Mountains, or that of the Saxon towns, villages, and fortified churches on the Târnava Valley, and not least in the magnificent landscapes of the Transylvanian Alps. This is the area with the most diverse and richest cultural heritage (from Prehistory to Modern times) in Transylvania.

What will I be studying

Courses and seminars (selection)

World Prehistory, Introduction to World Ancient History, Introduction to Ancient History of Romanians, Introduction to World Medieval History, History of Byzantium, Introduction to Medieval History of Romanians, Introduction to Archaeology, Dwellings, settlements and fortifications in Prehistory, Archaeological field-work, Archaeological topography, Primary conservation and Protection of archaeological sites, Latin epigraphy, Roads and fortifications in Roman Dacia, Roman numismatics and economy, Demography in archaeology, Digital data in Archaeology, Archaeometallurgy, Paleoethnobotany, Ethnoarchaeology, Archaeology of migrations and Early Middle Ages, Social and funerary archaeology, Modern techniques of research, Dating and interpretation in Archaeology, Methodology of scientific research.
